

I am writing to request that LPFM service not be expanded to allow priority over current FM translators. My family is well served by the K-LOVE radio network as it provides a balanced, wholesome alternative to some other radio stations. K-LOVE also serves the public interest with programs that are family oriented. If displaced by a LPFM, there is possibility that stations like K-LOVE would be overpowered and replaced by potentially offensive programming. There are many stations already on air that provide secular broadcasting, and very few with the high standards of K-LOVE. Thank you for your consideration.
